

DD SERIES

LITHIUM BATTERY COUNTERBALANCED

FORKLIFT

STANDARD FUNCTIONS

- ◆ High ground clearance with solid tires for excellent terrain adaptability
- ◆ 9-inch full-color display providing multiple real-time performance metrics
- ◆ Standard USB charging port to keep devices powered anytime.
- ◆ Built-in wireless phone charging for added convenience
- ◆ Optional automatic charge/discharge heating system for lithium batteries
- ◆ High-temperature protection system for safe and reliable operation
- ◆ High-efficiency permanent magnet synchronous motor with large-ratio gearbox for powerful performance
- ◆ Standard reverse assist handle and audible reverse alarm for safer maneuvering
- ◆ Modular powertrain with a clean, accessible layout for easy maintenance
- ◆ Automatic reverse lights standard, improving nighttime safety.
- ◆ Premium semi-wraparound seat for superior comfort Comfort-focused design keeps you productive all day long

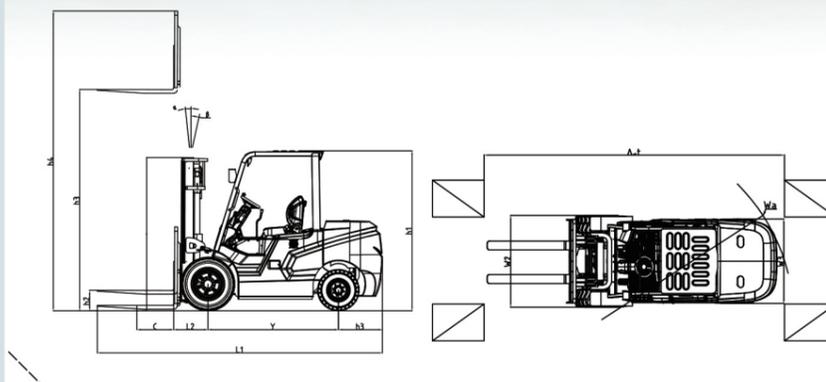

LITHIUM BATTERY

DIMENSIONS

MODEL: CPD40D

Rated Lifting Capacity	kg	4000
Load Center Distance	MM	500
Frame Inclination	Front	° 6°
	Rear	° 12°
Max Lifting Speed	No Load	MM/S 360
	Full Load	MM/S 260
Maximum Travel Speeds	No Load	KM/H 14
	Full Load	KM/H 12.5
Max Gradeability (Full Load)	%	15
Min Turning Radius	MM	2537
Weights (With Battery)	KG	5040
Overhang	Front Overhang	MM 467
	Rear Overhang	MM 586
Length	MM	2840
Width	MM	1270
Height	MM	2115
Fork Size (Lx W xT)	MM	1070*122*50
Hydraulic System Working Pressure	MPA	18
